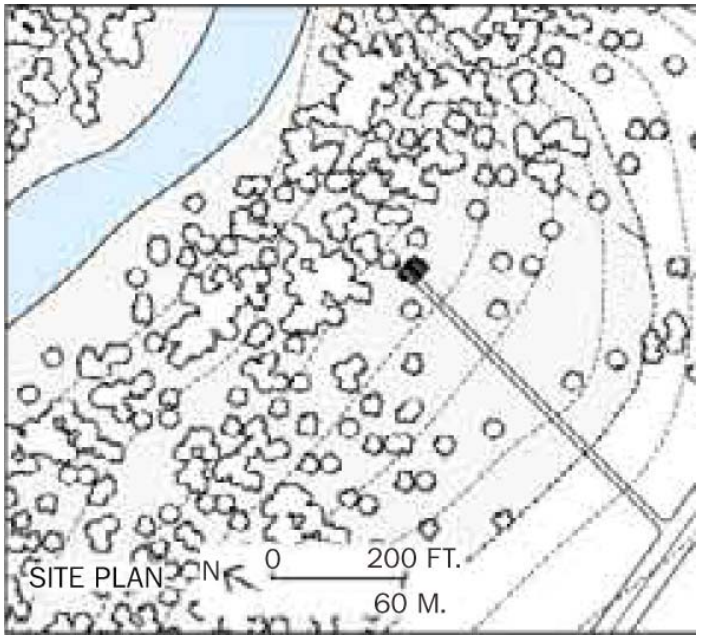
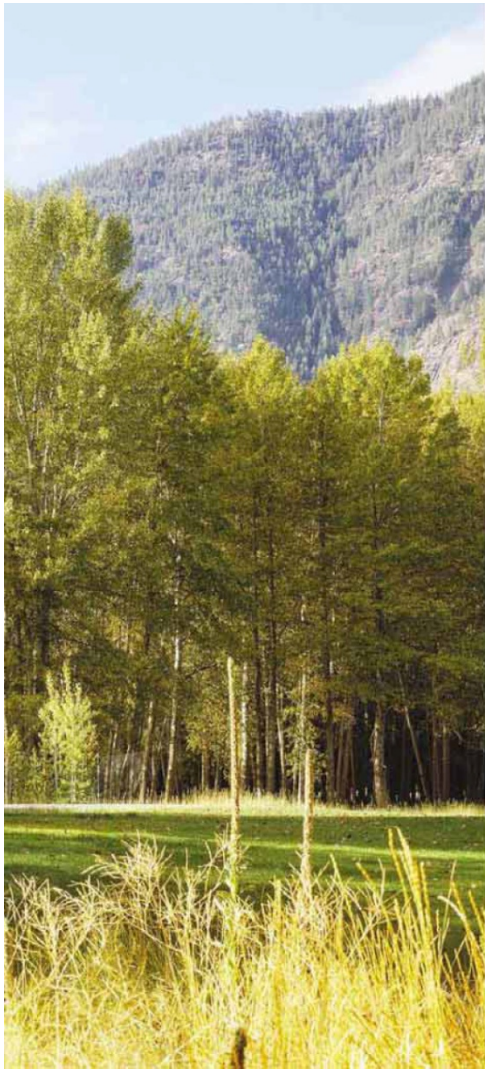
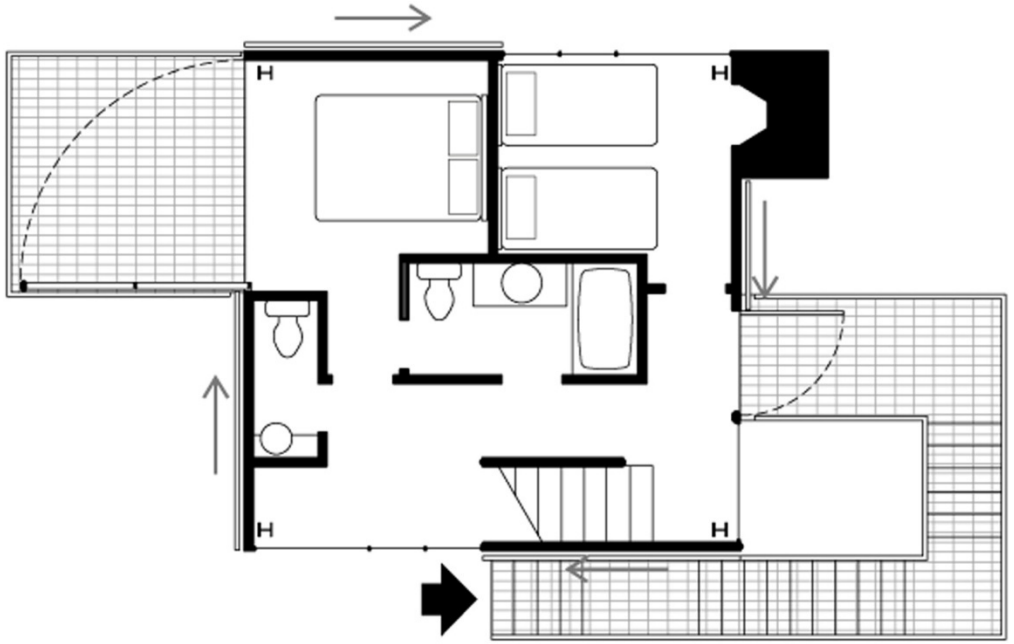
场地环境分析



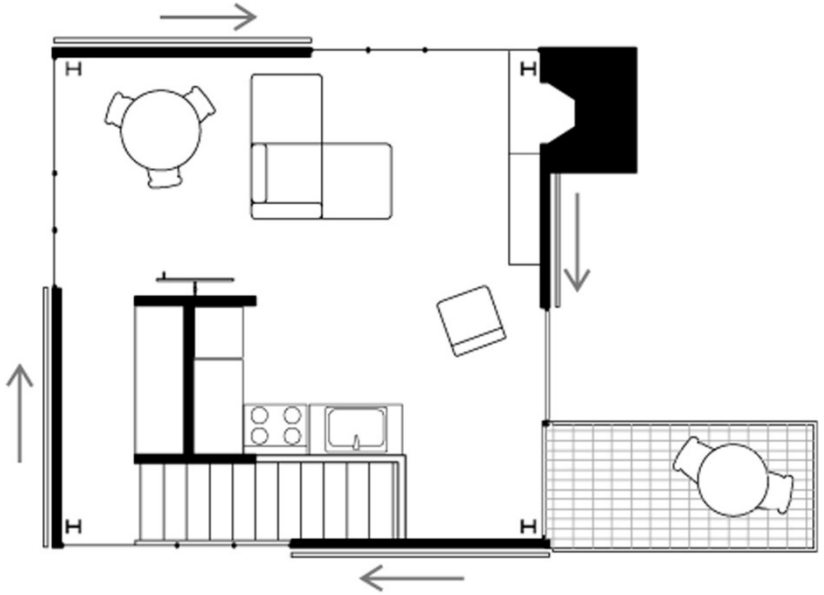


这个别墅位于大片森林中，周围空旷没有其他建筑，因此建筑有了充分展示的空间，既利用周围景观，又融入自然成为一体

为了更好的利用这些景观 这幢别墅的设计有独特的特点



建筑设计了几个阳台 表现出了对外部空间的延伸 旋转的楼梯更好的表现出了这一点



阳台是室内空间对外部的延续

材质分析

钢材作为结构，具有重量轻，塑性和韧性好，密封性好等优点

木材作为装饰材料，具有轻而强度高的优点，木材具有天然的美丽花纹、光泽和颜色，有特殊的装饰作用

钢材与木材的结合非常好地与周围自然环境融为一体，体现出建筑师亲近自然的理念。木纹是天然生成的图案，当木材纹理刺激人的视觉感官时，人们会感到心情舒畅
